Your Guide to Digital Transformation

Lightstream Endpoint Protection with
Microsoft Defender

What is the Solution?

Microsoft Defender is a comprehensive security solution that provides protection across identity, endpoints, email, cloud apps, infrastructure, and cloud platforms. It helps you prevent, detect, and respond to threats across your entire digital estate with integrated capabilities and advanced AI.

However, deploying and managing Microsoft Defender can be challenging, especially for organizations with complex or hybrid environments. That is where Lightstream can help! Lightstream is a Microsoft Gold Partner and a leading provider of cloud and security services. We offer services to help you optimize your Microsoft Defender deployment and maximize security outcomes.

Lightstream services for Microsoft Defender can help you address various security challenges and Scenarios.

Services Type

Assess	Design	Implement	Optimize

Solution Highlights

- **Assessment and Design:** We assess your current security state, identify gaps and risks, and design a customized Microsoft Defender solution that meets your business and security objectives.

- **Implementation and Migration:** We implement and configure Microsoft Defender across cloud and hybrid environments, ensuring that security policies and settings are consistent and compliant within your enterprise.

- **Management and Optimization:** We provide ongoing management and optimization of your Microsoft Defender solution. This includes monitoring, reporting, alerting, incident response, and remediation.

- **Training and Support:** We provide training and support to your IT and security teams.

Outcomes

- Improved Security
- Reduced Complexity
- Enhanced Visibility
- 24x7x365 Protection
